

## User Stories

### **Project Name:**

Field Technicians Mobile Interface for Asset Audits

### **Prepared for:**

Infonech Software Pvt. Ltd.

### **User Story 1: Login and Authentication**

<b>As a</b>	field technician
<b>I want</b>	to securely log into the application
<b>So that</b>	I can access my audit schedule and asset management features
<b>Acceptance Criteria</b>	<ol style="list-style-type: none"><li>1. The system shall present a login screen where the user can enter their username and password. (Refer Wireframe 1)</li><li>2. The system shall provide a link for new registration and a link for password recovery on the login screen. (Refer Wireframe 1)</li><li>3. Upon successful login, the system shall redirect the user to the dashboard with the calendar and audit schedule.</li></ol>

### **User Story 2: New User Registration**

<b>As a</b>	new field technician
<b>I want</b>	to register a new account with my professional details
<b>So that</b>	I can access the application features for the first time
<b>Acceptance Criteria</b>	<ol style="list-style-type: none"><li>1. The system shall display a registration screen with fields for username, password, re-enter password, employee ID, and official phone number. (Refer Wireframe 2)</li><li>2. The system shall send an OTP to the technician's phone number for verification upon form submission. (Refer Wireframe 3)</li><li>3. Upon successful OTP entry, the system shall confirm registration and redirect the user to the login screen. (Refer Wireframe 4)</li></ol>

### **User Story 3: Password Recovery**

<b>As a</b>	field technician
<b>I want</b>	to reset my password if I forget it
<b>So that</b>	I can regain access to my account
<b>Acceptance Criteria</b>	<ol style="list-style-type: none"><li>1. The system shall provide an option to reset the password by entering the user's registered email or phone number. (Refer Wireframe 5)</li><li>2. The system shall send an OTP to the entered email or phone number. (Refer Wireframe 6)</li></ol>

	<ol style="list-style-type: none"> <li>3. Upon successful OTP entry, the system shall prompt the user to set a new password and re-enter it. (Refer Wireframe 7)</li> <li>4. Upon successfully setting a new password, the system shall confirm the reset and redirect the user to the login page. (Refer Wireframe 8)</li> </ol>
--	---

#### User Story 4: View Audit Schedule

<b>As a</b>	field technician
<b>I want</b>	to view my audit schedule in a calendar format
<b>So that</b>	I can efficiently plan my audits
<b>Acceptance Criteria</b>	<ol style="list-style-type: none"> <li>1. The system shall display a calendar on the dashboard showing scheduled audit dates. (Refer Wireframe 9)</li> <li>2. The system shall highlight dates with scheduled audits.</li> <li>3. The system shall allow the technician to click on a date to view site details and start the audit process.</li> </ol>

#### User Story 5: Site Information and Begin Audit

<b>As a</b>	field technician
<b>I want</b>	to view site information before starting the audit
<b>So that</b>	I can verify the site details and initiate the audit process
<b>Acceptance Criteria</b>	<ol style="list-style-type: none"> <li>1. The system shall display site information such as site name, address, and contact information upon selecting a scheduled audit. (Refer Wireframe 10)</li> <li>2. The system shall provide a "Begin Audit" button to start the audit. (Refer Wireframe 10)</li> <li>3. The system shall provide an option to add a new asset at the site. (Refer Wireframe 10)</li> </ol>

#### User Story 6: View and Update Existing Assets

<b>As a</b>	field technician
<b>I want</b>	to view a list of existing assets and update their details
<b>So that</b>	I can verify asset information on-site and update it if necessary
<b>Acceptance Criteria</b>	<ol style="list-style-type: none"> <li>1. The system shall display a list of existing assets with details such as asset name, model, serial number, and location. (Refer Wireframe 11)</li> <li>2. The system shall allow the technician to modify details of an asset, mark it as missing, or update its information. (Refer Wireframe 12)</li> <li>3. The system shall save changes made to the asset information and allow the technician to move to the next asset.</li> </ol>

### User Story 7: Add New Asset

<b>As a</b>	field technician
<b>I want</b>	to add new assets that I find on-site
<b>So that</b>	I can maintain an accurate record of all assets
<b>Acceptance Criteria</b>	<ol style="list-style-type: none"><li>1. The system shall provide a form for adding new assets. (Refer Wireframe 13)</li><li>2. The system shall enable the technician to scan the QR code of the asset to populate certain fields automatically. (Refer Wireframe 14)</li><li>3. The system shall provide a form, with fields for manufacturer, model, capacity, serial number, type, UPL code, MIC code and upload images, videos, or documents related to the asset. (Refer Wireframe 15)</li></ol> <p style="text-align: center;">OR</p> <p>Upon scanning, the system shall extract the following details - manufacturer, model, capacity, serial number, type, UPL code, MIC code and shall allow the technician to upload images, videos, or documents related to the asset. (Refer Wireframe 16)</p> <ol style="list-style-type: none"><li>4. The system shall provide an option to save the new asset details and add child or sub-child assets if applicable.</li></ol>

### User Story 8: Review and Submit Audit

<b>As a</b>	field technician
<b>I want</b>	to review all audit entries before submitting
<b>So that</b>	I can ensure the accuracy of the data
<b>Acceptance Criteria</b>	<ol style="list-style-type: none"><li>1. The system shall display a summary screen listing all assets with indicators for their statuses (verified, missing, or newly added). (Refer Wireframe 17)</li><li>2. The system shall allow technicians to edit any entry before final submission. (Refer Wireframe 18)</li><li>3. Upon submitting the audit, the system shall confirm successful data submission to the backend.</li></ol>

### User Story 10: Audit Completion and Logout

<b>As a</b>	field technician
<b>I want</b>	to receive confirmation upon completing an audit (Refer Wireframe 19)
<b>So that</b>	I can securely log out after submission

<b>Acceptance Criteria</b>	<ol style="list-style-type: none"><li>1. The system shall display a confirmation message upon successful audit submission.</li><li>2. The system shall provide an option to log out from the app or return to the dashboard to start another audit.</li><li>3. Upon logging out, the system shall terminate the session securely.</li></ol>

### Appendix 1

ID	Field Name	Field Type	Content	Required Field?	Notes
1	Username	Text Box	Alphanumeric	Yes	Username shall be valid.
2	Password	Text Box	Alphanumeric	Yes	Password shall be valid. Password shall be encrypted.
4	Sign In	Command Button	N/A	N/A	On click, if all validations pass, navigate user to 'Calander View' page in same browser or else display the following error messages – "Invalid Username/Password, try again."
5	New Registration	Command Button	N/A	N/A	On click, display "New User Registration Page"
6	Forgot Password	Command Button	N/A	N/A	On click, display "Forgot Password Page"

## Wireframe 2 (New User Registration Page)

The wireframe shows a mobile application interface for a new user registration. At the top, there's a status bar with signal, battery, and time (11:53). Below it is a header with the company name 'Infonech Software'. The main title of the page is 'New User Registration'. The form consists of five text input fields, each with a label above it: 'Username', 'Employee ID', 'Mobile Number', 'Password', and 'Re-enter Password'. At the bottom of the form are two buttons: 'Submit' and 'Cancel'.

### Appendix 2

ID	Field Name	Field Type	Content	Required Field?	Notes
1	Username	Text Box	Alphanumeric	Yes	Min char: 8 Max char: 100
2	Employee ID	Text Box	Numeric	Yes	Min char: 9 Max char: 9
3	Mobile No.	Text Box	Numeric	Yes	Display country code before entering the mobile no. Min char: 10 Max char: 10
4	Password	Text Box	Alphanumeric	Yes	Min char: 8 Max char: 16 Password shall be encrypted.
5	Re-enter Password	Text Box	Alphanumeric	Yes	Re-entered password shall be same as Password.
6	Submit	Command Button	N/A	N/A	On click, display "OTP – New User Registration Page"
7	Cancel	Command Button	N/A	N/A	On click, display "Login Page"

## Wireframe 3 (OTP – New User Registration Page)

The wireframe shows a mobile application interface for a 'New User Registration' page. At the top, there is a status bar with signal, battery, and time (11:53) icons. Below this is a header box containing the text 'Infonech Software'. The main title 'New User Registration' is centered below the header. A message states 'An OTP has been sent at +91 xxxxxx123' with a blue 'Edit' link. Below the message is the label 'Enter OTP' followed by a text input field and a 'Validate' button. At the bottom, there is a 'Back' button.

### Appendix 3

ID	Field Name	Field Type	Content	Required Field?	Notes
1	Enter OTP	Text Box	Numeric	Yes	Min char: 6 Max char: 6
2	Edit	Hyperlink	N/A	N/A	On click, display "New User Registration Page"
3	Validate	Command Button	N/A	N/A	On click, validate the OTP, if valid display "Redirecting - New User Registration Page"
4	Back	Command Button	N/A	N/A	On click, display "Login Page"

## Wireframe 4 (Redirecting - New User Registration Page)

## Wireframe 5 (Forgot Password Page)

Infonech Software

**Reset Password**

E-mail ID/Phone Number

Send OTP

Cancel

### Appendix 4

ID	Field Name	Field Type	Content	Required Field?	Notes
1	Email ID or Phone No.	Text Box	Alphanumeric	Yes	Min char: 8 Max char: 100
2	Send OTP	Command Button	N/A	N/A	On click, validate the email ID or phone no., if valid, display "Enter OPT – Forgot Password Page"
3	Cancel	Command Button	N/A	N/A	On click, display "Login Page"

## Wireframe 6 (OTP – Forgot Password Page)

The wireframe shows a mobile application interface for the 'Infonech Software' 'Reset Password' page. At the top, the status bar displays signal strength, battery level, and the time 11:53. The app header 'Infonech Software' is in a box. Below it, the title 'Reset Password' is underlined. A message states 'An OTP has been sent at +91 xxxxxxx123' with an 'Edit' link. The main form area contains the label 'Enter OTP' above a text input field. To the right of the input field is a 'Validate' button. Below the input field is a 'Cancel' button.

### Appendix 5

ID	Field Name	Field Type	Content	Required Field?	Notes
1	Enter OTP	Text Box	Numeric	Yes	Min char: 6 Max char: 6
2	Edit	Hyperlink	N/A	N/A	On click, display "Forgot Password Page"
3	Validate	Command Button	N/A	N/A	On click, validate the OTP, if valid display "Enter New Password Page"
4	Cancel	Command Button	N/A	N/A	On click, display "Login Page"

## Wireframe 7 (New Password – Forgot Password Page)

The wireframe shows a mobile application interface for resetting a password. At the top, there is a status bar with signal, battery, and time (11:53) icons. Below this is a header box containing the text 'Infonech Software'. Underneath the header is a section titled 'Reset Password'. This section contains two text input fields: the first is labeled 'New Password' and the second is labeled 'Re-enter New Password'. Below these fields are two buttons: 'Submit' and 'Cancel'.

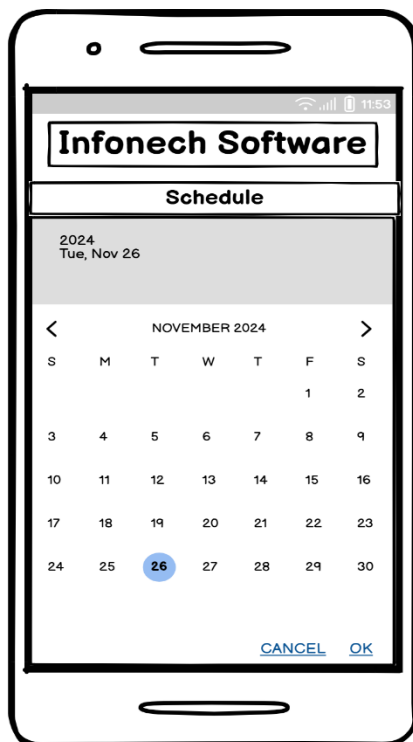

### Appendix 6

ID	Field Name	Field Type	Content	Required Field?	Notes
1	New Password	Text Box	Alphanumeric	Yes	Min char: 8 Max char: 16 New Password shall be encrypted.
2	Re-enter New Password	Text Box	Alphanumeric	Yes	Re-entered New Password shall be same as New Password
3	Submit	Command Button	N/A	N/A	On click, validate the OTP, if valid display "Redirecting – Forgot Password Page"
4	Cancel	Command Button	N/A	N/A	On click, display "Login Page"

## Wireframe 8 (Redirecting – OTP – Forgot Password Page)

## Wireframe 9 (Schedule – Calander View Page)

## Wireframe 10 (Site Information – Asset Management Page)

Infonech Software

Site Information

Site Name <Site Name>

Site Address <Site Address>

Contact Information <+91 xxxxxxxxxx>

### Appendix 7

ID	Field Name	Field Type	Content	Required Field?	Notes
1	Site Name	Text Box	NA	NA	Display scheduled "Site Name"
2	Site Address	Text Box	NA	NA	Display scheduled "Site Address"
3	Contact Information	Text Box	NA	NA	Display scheduled "Contact Information"
3	Begin Audit	Command Button	N/A	N/A	On click, display "Existing Asset List Page"
4	Add New Asset	Command Button	N/A	N/A	On click, display "Add New Asset Page"
5	Back	Command Button	N/A	N/A	On click, display "Calander View Page"

## Wireframe 11 (Existing Asset List Page)

The wireframe shows a mobile application interface for 'Infonech Software'. The title 'Existing Asset List' is centered at the top. Below it is a search bar labeled 'Asset Name'. The main content area lists various assets, each with an 'Audit' radio button to its right. The assets listed are: Tower, Poles, MW Antenna, RF Antenna, Generator, Generator Canopy, Generator Alternator, Generator Engine, Generator Battery, Generator Fuel Tank, Battery Bank, Battery Cells, and Rectifier Cabinet. At the bottom of the screen are three buttons: 'Save', 'Resume', and 'Back'.

Asset Name	Audit
Tower	<input type="radio"/> Audit
Poles	<input type="radio"/> Audit
MW Antenna	<input type="radio"/> Audit
RF Antenna	<input type="radio"/> Audit
Generator	<input type="radio"/> Audit
Generator Canopy	<input type="radio"/> Audit
Generator Alternator	<input type="radio"/> Audit
Generator Engine	<input type="radio"/> Audit
Generator Battery	<input type="radio"/> Audit
Generator Fuel Tank	<input type="radio"/> Audit
Battery Bank	<input type="radio"/> Audit
Battery Cells	<input type="radio"/> Audit
Rectifier Cabinet	<input type="radio"/> Audit

Buttons: Save, Resume, Back

## Appendix 8

ID	Field Name	Field Type	Content	Required Field?	Notes
1	Search Box	Search Box	Alphanumeric	No	Display assets written in the "Search Box"
2	Audit	Radio Button	NA	NA	On Click, display "Update Existing Assets Page"
3	Save	Command Button	N/A	N/A	On click, save the audit and display "Review 1 Page"
4	Resume	Command Button	N/A	N/A	On click, resume the earlier audit.
5	Back	Command Button	N/A	N/A	On click, display "Site Information – Asset Management Page"

## Wireframe 17 (Review Page 1)

The wireframe shows a mobile application interface. At the top, there is a status bar with a signal icon, a battery icon, and the time 11:53. Below the status bar is a header box containing the text "Infonech Software". The main content area is titled "Asset Details". It contains four text input fields, each with a placeholder text: "<Asset Name>", "<Model Number>", "<Serial No.>", and "<Location>". At the bottom of the form, there are two buttons: "Next" and "Cancel".

### Appendix 14

ID	Field Name	Field Type	Content	Required Field?	Notes
1	Asset Name	Text Box	NA	NA	Display "Asset Name" in the text box
2	Model Number	Text Box	NA	NA	Display "Model Number" in the text box
4	Serial No.	Text Box	NA	NA	Display "Serial No." in the text box
5	Location	Text Box	NA	NA	Display "Location" in the text box
6	Next	Command Button	NA	NA	On click, display "Review Page 2"
7	Cancel	Command Button	NA	NA	On click, display "Add New Asset Page" or "Existing Asset List Page"

## Wireframe 18 (Review Page 2)

The wireframe shows a mobile application interface. At the top, there's a status bar with signal, battery, and time (11:53). Below it is a header box labeled 'Infonech Software'. The main content area is titled 'Asset Details'. It contains four text input fields, each with a label and a placeholder: 'Asset Name' with '<Asset Name>', 'Model Numb' with '<Model Number>', 'Serial No.' with '<Serial No.>', and 'Location' with '<Location>'. At the bottom of the form are three buttons: 'Previous' (blue), 'Submit', and 'Cancel'.

## Appendix 15

ID	Field Name	Field Type	Content	Required Field?	Notes
1	Asset Name	Text Box	NA	NA	Display "Asset Name" in the text box
2	Model Number	Text Box	NA	NA	Display "Model Number" in the text box
4	Serial No.	Text Box	NA	NA	Display "Serial No." in the text box
5	Location	Text Box	NA	NA	Display "Location" in the text box
6	Previous	Command Button	NA	NA	On click, display "Review Page 1"
7	Submit	Command Button	NA	NA	On click, save the information and display "Confirmation/Logout Page"
8	Cancel	Command Button	NA	NA	On click, display "Add New Asset Page" or "Existing Asset List Page"

## Wireframe 19 (Confirmation/Logout Page)

### Appendix 16

ID	Field Name	Field Type	Content	Required Field?	Notes
1	Logout	Command Button	NA	NA	On click, display "Login Page"
